Art Unit: 1711

1. Claims 13, 15, 16, 18, 19, 20, 22-24 and 28-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

2. These claims are directed to polyesters, ester acrylate and alkenyl ethers, which aren't polyurthanes, but depend from a urethane claim.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Daniels (3,635,914).

Daniels discloses, in example 1, polyurethanes having the structural unit (XXX) with at least two repeat units.

5. Claims 4-12 and 25-27 are objected to for depending on rejected claims.
